WE ARE M&C SAATCHI PERFORMANCE

WE CONNECT YOUR BRAND TO TODAY'S CONNECTED CONSUMERS

LOCAL NOW, APP STORE OPTIMIZATION

Local Now is a free app available on Android, iOS and Smart TV devices. Consumers can stream free movies, TV shows and local news programming.

Programming includes weather, news, sports, entertainment and lifestyle shows and operates as an Advertising Based Video On Demand (AVOD) model.

M&C Saatchi Performance were appointed in 2021 as media agency, our goal is to deliver user retention, user acquisition and overall brand awareness with a remit that extends beyond paid performance.

Our App Store Optimization (ASO) team implements strategies to increase an app's visibility in the app store. By adjusting the Local Now App Store listing, using learnings from competitive research and A/B testing, we were able to improve app ranking and increase downloads.

OUR APPROACH

THE BRIEF:

Increase Local Now's visibility within the Google Play App Store, ultimately increasing total downloads.

THE CHALLENGE:

There are several competitor brands within the vertical all vying for the #1 ranking position.

App Store traffic is highly dependent on identifying valuable keywords that are relevant to the Local Now offering. With such a highly competitive set all active in the App Store, it can be difficult to break through the noise and capture attention of potential customers.

THE STRATEGY:

Our strategy for Local Now was to cut through with a refreshed keyword list.

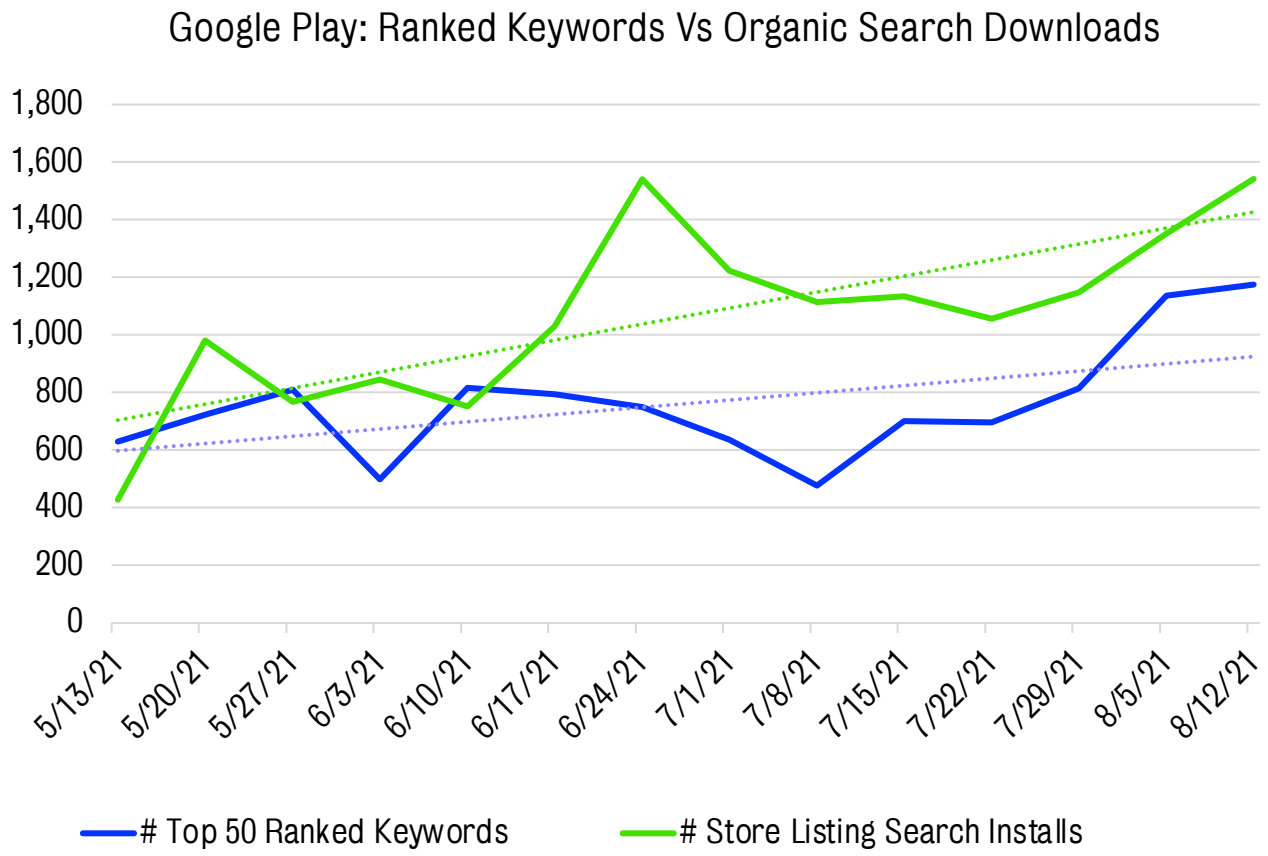
Using competitive research, we identified keywords that are most valuable for Local Now in the Google Play Store based on relevancy and search volume. In addition, we learned which keywords were no longer performing well and removed them from our targeting, to improve efficiencies

In addition, we saw an opportunity to optimize some other key tactics for ASO, such as updating both Title and Short Descriptions which enabled the full character limits to be utilized, thereby increasing visibility in the Google Play Store.

THE CAMPAIGN

Once the updated keyword list and Title and Description were implemented in July, we began to see positive shifts among keywords.

While there was a lot of volatility in the Top 20 rank group, we saw an overall increase across the 8-week reporting period. For the first time, Local Now started ranking for “News” and gained a Top 2 rank for “Local News”.



THE POWER OF PERFORMANCE

80%

MORE TOP 10 KEYWORDS*

+4%

CONVERSION LIFT

+35%

INCREASE IN ORGANIC APP DOWNLOADS

After making updates to ad copy and implementing a new keyword set, we saw a significant lift in performance for our client. This ultimately drove a +35% increase in total App downloads from the Google Play store during this time period.

* App was a top performer using the 10 most searched keywords in this category
