CASE STUDY

INCREASING ORGANIC INSTALLS FOR MOBILE PREMIER LEAGUE

M&C SAATCHI PERFORMANCE

MPL MOBILE PREMIER LEAGUE

BACKGROUND: POPULAR MOBILE GAMING PLATFORM

Mobile Premier League (MPL) is a leading mobile platform where users can compete in multiple skill based mobile gaming tournaments in return for cash prizes. Since 2021, MPL is also active in the US.

OBJECTIVE: INCREASE ORGANIC INSTALLS ON IOS

MPL wanted to increase their organic installs coming through the App Store.

CHALLENGE: FIERCE COMPETITION & USER TRUST

In the highly competitive real money gaming industry, it is essential to keep the app storefront relevant to the latest app features and game availability. At the same time, with real money involved, it is essential to focus on trust signals.

OUR APPROACH:

- We looked at the major App Store trends in the United States and conducted a competitor analysis, using our findings to build hypothesise for keyword implementations and A/B testing.
- We ran multiple A/B tests covering a variety of ideas: different background colors on screenshots and text copies, highlighting different games, highlighting user safety and testing app icons.
- We focused on in-app events for high-revenue generating games such as Gin Rummy, 3 Card flush, Spades, Bingo, Block Puzzle & and Snakes & Ladders. We varied the events around different game modes, such as Leaderboards and Tournaments.
- To ensure relevance, we adapted screenshots and ran exclusive in-app events according to festive seasons (e.g. Halloween, Thanksgiving, Christmas) and other US based holidays.
- We conducted 5 rounds of keyword optimization focusing on Money & Cash, Rummy, Cards and Bingo related keywords.

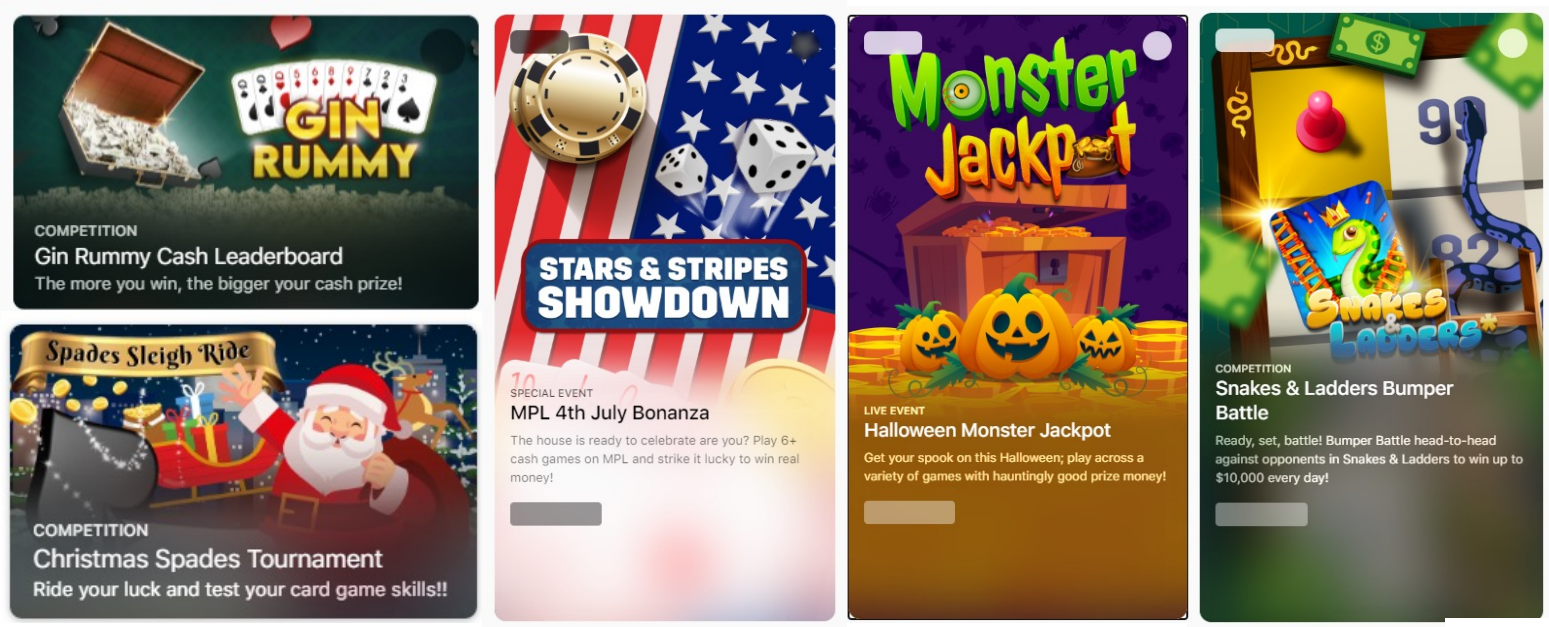
M&C SAATCHI PERFORMANCE

THE EXECUTION

As well as building up a range of in-app events for key games to be used on an alternating weekly basis, we also focused on optimizing the storefront to recognize seasonality.

We ensured to adapt imagery and run exclusive in-app events highlighting specific games specific to key US holidays, such as Independence Day, as well as Halloween, Thanksgiving and Christmas.

We ensured using relevant game keywords to further bolster discoverability via organic search impressions.

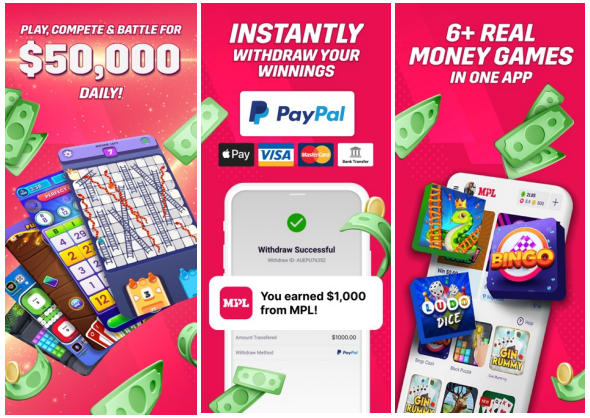


THE EXECUTION

We conducted a number of Product Page Optimizations, A/B testing a range of factors, such as:

- Copy text
- Copy colour
- Device imagery
- Game callouts
- Game backgrounds and more

BEFORE



AFTER

M&C SAATCHI PERFORMANCE

THE EXECUTION

The main challenge we faced with keywords was the breadth of games included within the MPL app and the competitiveness of the keywords relating to these games.

Through our various keyword implementations, we have addressed the multiple key areas, improving rank across the board and gaining ranking where we previously were not.

KEYWORDS	BEFORE ASO	AFTER ASO
Gin Rummy	98	41
Card Games	226	91
Win Real Money Games	41	20
Ludo	206	47
Solitaire Clash	-	12
Money Earning Apps	-	25
Gin Rummy Classic	-	46
Rummy Card Game	109	35
Spades Card Game	-	12
Spades Online	-	30
Solitaire Cash Games	145	27

M&C SAATCHI PERFORMANCE

THE EXECUTION

Following all the best practices of ASO and keyword optimization, we helped MPL achieve:

- 42% increase in Top 15 keywords
- 57% increase in Top 30 keywords
- 200% increase in Product Page Views, resulting in 40% increase in Search App Installs and 11% increase in Browse App Installs

MPL MOBILE PREMIER LEAGUE

A FEW WORDS FROM MPL

‘Over the past six months, M&C Saatchi Performance has been instrumental in optimizing MPL's ASO strategy on iOS in the US market. Their proactive approach, offering strategic options for keywords and creative assets, coupled with seamless execution and insightful performance analysis, has resulted in a substantial increase in our app's organic installs. It has been fruitful partnership, and we're excited for what lies ahead.’
