# QUIZLET, BACK TO SCHOOL USER ACQUISITION

Quizlet

Quizlet are a global education technology company based in the USA. Quizlet became an M&C Saatchi Performance client in 2021 to deliver the peak 'Back to School' campaign in the fall. The primary objective was to drive trial amongst target audiences.

Initially the campaign was US focused but territories such as Canada, UK, Australia, New Zealand and Ireland were added at a later stage.

In 2020 COVID significantly driven the adoption of education tech both amongst teachers and parents as home schooling became the primary method of learning in the USA.

Our Global Insights Hub team assisted in the development of deep-dive audience insights to enable the client to understand their consumer and develop the campaign strategy.

# CAMPAIGN APPROACH

Quizlet

## THE BRIEF:

Bring new users to Quizlet, through paid app installs, registrations and subscription trials against a Cost per Trial (CPT) goal.

The campaign launched in the US before testing commenced in other markets (CA, UK, AU, NZ, IR) which were executed mid campaign flight.

## THE CHALLENGE:

In April 2021 iOS14.5 brought in App Tracking Transparency (ATT) for Apple users. This development meant that users were prompted to accept or decline tracking when opening apps.

This significant change limited the tracking & attribution data available which had previously enabled campaign optimization.

In response, we switched the user journey from app store to web early in the campaign. This approach enabled performance against CPT goals, especially while taking Appstore fees into consideration.

# STRATEGIC APPROACH

Quizlet

## BASED ON KEY INSIGHTS:

A deep dive into the education landscape in the USA revealed key insights such as;

- Over 86% of students in the US are between the ages of 16-24.
- They are heavily engaged online, gaming, streaming, podcasts and social channels are of upmost importance
- Parents & teachers frequently research products online before purchasing, social channels provide high reach

## A BLENDED APPROACH:

We planned a broad channel mix, which enabled the delivery of both acquisition and attention. To enable this strategy, a broad mix of channels were selected, for example; search via Google Search Engine Marketing, Apple Search Ads, Google App Campaign, and Programmatic, through to social channels such as YouTube, Facebook, Snapchat, TikTok, Twitter, Reddit.

## EMERGING CHANNELS:

Due to privacy changes brought by iOS 14.5 we utilized other emerging channels, such as Connected TV (CTV), iHeart Radio podcasts, In-Game inventory and Digital out of Home (DOOH) to enable testing of brand lift and upper funnel tactics.

# CAMPAIGN HIGHLIGHTS

Quizlet

| PODCASTS | IN-GAME | DIGITAL OUT OF HOME | CONNECTED TV | REDDIT |
|---|---|---|---|---|
| • An awareness driving tactic<br>• Two podcasts chosen for relevancy and reach; *'Stuff You Should Know'* and *'Stuff You Missed in History Class'*<br>• 30 second audio spots were purchased | • Achieved incremental reach to core demographic<br>• Content was aligned to the gaming vertical and audience needs<br>• Highly effective in-game formats with leaned in, hyper engaged users | • Created a custom college student audience based on location data.<br>• Activated DOOH media at times and places where the audience were frequenting<br>• Increased lift in brand awareness, consideration and intent | • Connected TV was executed via The Trade Desk<br>• Targeting 60 different audience segments<br>• High availability of audience and ability to scale without saturating the audience | • Reddit Takeovers delivered awareness and fueled retargeting pool<br>• Reddit conversation ads achieved the most efficient CPT<br>• Creative ads that were a playful, Reddit tone showed strong performance |
