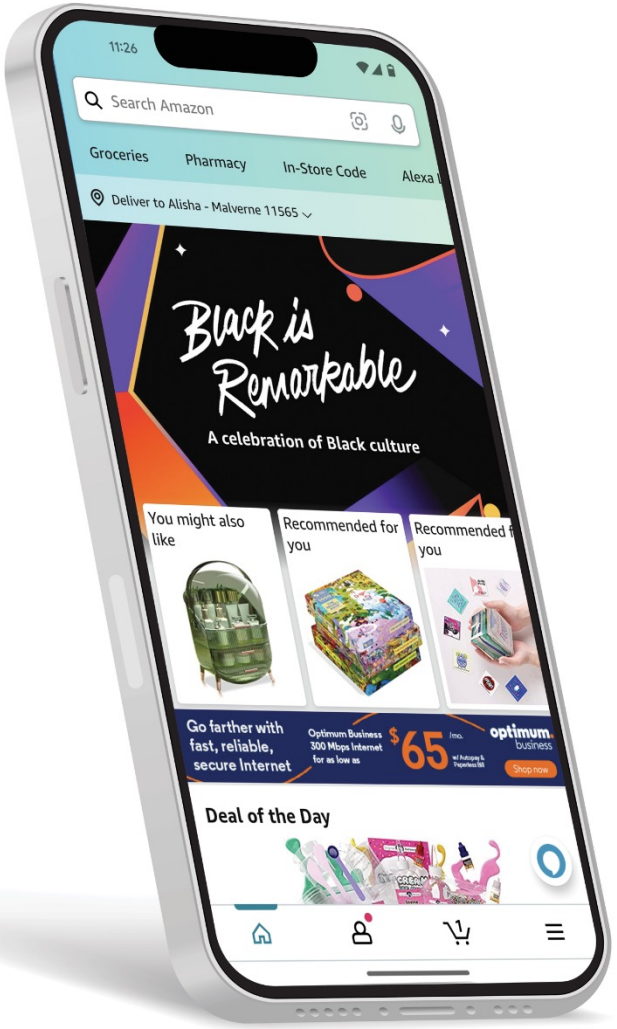
WE ARE M&C SAATCHI PERFORMANCE

WE CONNECT YOUR BRAND TO TODAY'S CONNECTED CONSUMERS

AMAZON SHOPPING
CREATIVE TESTING: INFLUENCER CONTENT



Amazon Shopping is the largest online retailer in the United States.

Headquartered in Seattle, the retailer is the most popular online marketplace used by both individuals and businesses.

In 2021, Amazon surpassed Walmart as the world's largest retailer outside of China.

We have been working with Amazon Shopping in the USA since 2011, managing standard digital media campaigns with a focus on driving CPA efficiency. Our partners range from programmatic partners to ad networks. As with all clients, we frequently propose new tactics to ensure campaigns continue to be delivered successfully.

We have managed highly successful Influencer campaigns for several clients and therefore were asked to develop Influencer video campaigns for Amazon Shopping to run performance testing on the creative developed.

CAMPAIGN APPROACH

amazon

THE OBJECTIVE:

Our goal was to develop creative testing campaigns for Influencer content, ultimately leading to increased app downloads.

THE CHALLENGE:

Gaining attention of new customers in a competitive retail landscape. Amazon Shopping are continually seeking ways to reach new audiences.

OUR APPROACH:

Identified and partnered with micro and macro influencers whose content represented various shopping categories on the app – e.g. fashion, beauty, pets, etc.

With convenience top of mind, we wanted Influencers to share with their community how easy it is to shop via the Amazon app. For example, some videos highlighted specific app features such as Virtual Reality (dragging and dropping a piece of furniture into your apartment using the camera lens).

To measure app installs, we incorporated the video creatives into our paid media campaigns and measured the performance through AppsFlyer attribution.

RECAP: WHY USE CONTENT CREATORS AND INFLUENCERS?

INFLUENCE

Influencers are best used when the goal is to reach a specific audience through the voice of the creator. The partnership helps to drive awareness and trust by leveraging their equity, thus, influencing their audience.

REACH

A single post has the potential to reach millions of people who subscribe or follow an account. Whether the goal is mass media coverage or reaching a niche audience, creators are like any other media publisher.

CONTENT CREATION

Content creators can be an efficient resource for generating assets on organic and paid channels using the expertise of the creator, allowing for brands to experiment with different types of content and produce ads that appear more native.

M&C SAATCHI PERFORMANCE

CHOOSING THE RIGHT INFLUENCERS

Celebrity influencers are some of the most recognizable people living in the public eye and can include those who have gained popularity through social media. This group is the most expensive but has the greatest reach.

Smaller influencers have the potential to reach niche audiences, tend to see higher engagement rates, and are more cost effective.

At M&C Saatchi Performance, we believe finding the right partnerships means looking beyond the size of a following and customizing our approach based on a brand's objective.

CELEBRITY
