SKILLZ, USER ACQUISITION CAMPAIGN VIA SNAPCHAT

M&C Saatchi Performance has been working with Skillz, an online competitive gaming platform, to increase user acquisition since January 2021.

In order to meet client goals, we strategized testing various ad formats across different partners, including social channels such as Snapchat.

The objective of Skillz marketing campaign was to increase cash deposits and plays across their mobile games. Recent privacy updates on iOS due to iOS 14.5 created a challenge when utilizing social media channels such as Snapchat due to reduced tracking visibility.

To reduce the impact of iOS14.5, we worked with Snapchat to optimize towards Kochava data in a privacy compliant way. By linking advanced conversion data directly to Snapchat we were able to drive efficient user acquisition via social media.

OUR APPROACH

skillz
eSports for Everyone

THE BRIEF:

Drive scalable user acquisition for Skillz through social media channels.

THE CHALLENGE:

The iOS SKAdNetwork update limited the Snapchat data available. With a lower-funnel KPI and a target audience directly affected by this update, we needed to be able to look beyond Cost per Install to ensure we were continuing to meet client goals.

THE STRATEGY:

Due to the update and the limited data iOS would restrict, Snapchat moved to make data available to us in a privacy compliant way using mobile measurement partner Kochava.

Advanced Conversions within Kochava allowed us to make well-informed optimizations and move from a KPI of Cost per Install to a Lower Funnel KPI of users adding funds to enable them to play.

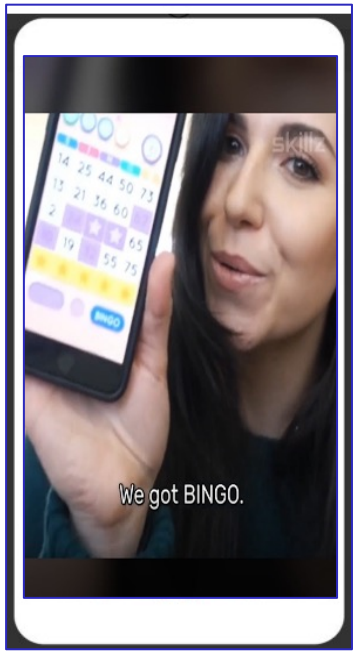
Targeting iOS users proved successful as they downloaded the app at a higher rate. Therefore, we continued to target this key audience through Snapchat layered with demographic, location and behavioural targeting using snap story and single video ads.

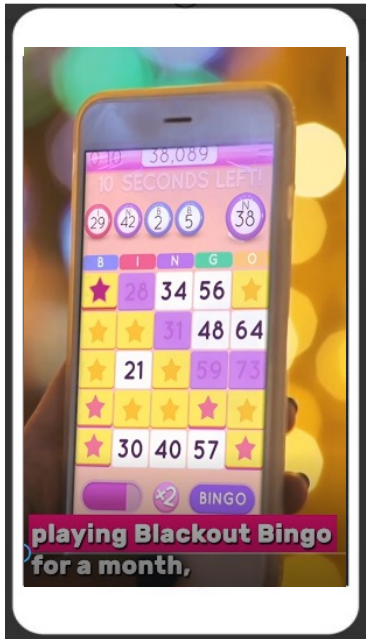
M&C SAATCHI PERFORMANCE

CREATIVE EXAMPLES

We ran a variety of different creative units on Snapchat including single ad videos and Snap Story ads.

Upon relaunch with advanced conversion metrics, we began optimizing towards the better units of single ad videos as they drove more conversions aligning with our goals.





THE POWER OF PERFORMANCE

-45%
LOWER COST PER INSTALL

1.11%
CONVERSION RATE*

27.4+
MILLION
IMPRESSIONS

Enabling Advanced Conversions gave us the ability to get closer to client goals and optimize down where possible.

We ultimately found that specific games and creatives drove more efficient conversions leading us to follow similar activations in other markets outside of the US.

Results: Q4 2021
*Conversion = install + Cash deposit
